CALL TO CONVENTION

An Invitation . . .

It is with great pleasure that we invite you to the Palawan State University, Puerto Princesa City to attend the 45th Annual National BIOTA Convention and Scientific Sessions on April 8-10, 2010 (Theme: *Biology and the Decade of Education for Sustainable Development*).

To be held in cooperation with the Palawan State University, the Department of Education, and the Commission on Higher Education, this year's convention will focus on the biologists' role and responsibility in creating a sustainable future, and in acting for positive environmental and social change through their teaching and research work.

Major activities include plenary sessions, seminars, workshops, demonstrations, hands-on activities, poster exhibits/ discussions, educational field trip, and commercial exhibits. The activities are designed to:

- provide opportunities for biology educators, teachers and researchers to identify relevant and effective content and teaching strategies to make Education for Sustainable Development a component of the teaching-learning and research processes;
- identify effective ways by which contemporary teaching approaches and practical research methods can be integrated into the Biology course at the different educational levels;
- stress the responsibility of biology teachers and researchers in promoting interest, understanding, and appreciation of the biological sciences; and
- provide a venue for teachers to share experiences and to enhance their knowledge on research works, teaching innovations, and other creative activities that may help improve and promote Biology education in the country.

With its commitment to excellence in Biology teaching, research, and community service, BIOTA Philippines, Inc. invites all interested stakeholders to this annual gathering of biology educators, researchers, practitioners, and enthusiasts.

CONVENTION REGISTRATION FEE

[includes membership fee, convention materials, 3-day snacks, lunches, fellowship and testimonial dinners]

Early Bird (on or before March 15, 2010)

New Regular Member PhP 2,800
